

Oliver Naumov

Designer · Co-Founder

Designer and founder. I co-built an AI platform for fashion brands and took it from zero to \$20K+ MRR with one other person, owning most of the design and growth myself. I can ship the product, build the brand around it, and run the marketing that actually gets people in the door. Studied Informatics, and got into all of this by launching my own clothing label first.

Work Experience

Co-Founder, Design & Growth DEC 2025 - PRESENT
TCHPACK · AI DESIGN-TO-PRODUCTION PLATFORM · TCHPACK.COM

- Co-built the product with one other founder and grew it from zero to \$20K+ MRR. I ran everything on the design and growth side.
- Designed the whole product across web and iOS: the user flows, the interface, the prototypes, and the UX for Aria, our AI assistant that turns a rough idea into a real, production-ready tech pack, does research, etc.
- Built the brand from scratch. Editorial and restrained, made to sit next to names like Figma, SSENSE, and Cursor.
- Ran the full growth side myself: organic short-form video, creator deals, paid social, and email.
- Worked with my co-founder to ship AI features end to end, including custom built "Aria" assistant, vector automation, and manufacturer sourcing.

Information Technology Specialist II JUN 2023 - MAY 2026
NEW YORK STATE OFFICE OF INFORMATION TECHNOLOGY SERVICES

- Handled full IT support for an entire agency building: hardware, software, and network. Kept everything secure and running.
- Solved the messy, complicated problems on my own and ahead of deadline.

UI/UX Designer & Web Developer JAN 2024 - JAN 2025
OPENTI

- Designed and built responsive, conversion-focused websites for clients across different industries, owning each project from the first brief to launch.
- Worked straight with business owners to turn their goals into clean, accessible interfaces that actually felt human.
- Tied every design call back to the brand and to real gains in how the business showed up online.

Education

B.S. in Informatics, Interactive User Experience @ State University of New York at Albany
AUGUST 2020- MAY 2024

- Minors in Cybersecurity and Game Design & Development
- Dean's List (3x)
- CURCE Grant Recipient

Monsignor Farrell High School @ Staten Island, NY
JUNE 2016- JUNE 2020
