

Oliver Naumov

UX/UI Designer & Product Strategist

naumovoliver@gmail.com • +1 347-937-4894 • LinkedIn • Portfolio

Multidisciplinary designer and builder with experience shipping AI-powered products, leading brand strategy, and designing intuitive digital experiences. Proven ability to take products from concept to launch — currently driving \$20K+ MRR at a self-founded fashion-tech startup.

EXPERIENCE

UX/UI Design & Marketing | Tchpack

Jan 2025 – Present

- Helped design & Market an AI-powered fashion platform (tchpack.com) connecting brand owners with manufacturers — scaled to \$20K+ MRR within months of launch.
- Lead all UX/UI design across web and iOS, owning user flows, interface design, prototyping, and iterative usability improvements.
- Drive full marketing strategy including content direction, paid campaigns, creator partnerships, and organic social — growing brand visibility across digital channels.
- Collaborate with developers to ship AI-powered features including mockup generation, vector automation, and product sourcing tools.
- Manage cross-platform product experiences (web, iOS, Figma plugin) from concept through launch.

UI/UX Designer & Web Developer | OpenTI

Jan 2024 – Jan 2025

- Designed and developed responsive, conversion-focused websites for clients across industries, emphasizing accessibility and human-centered design.
- Partnered directly with business owners to define requirements, map user flows, and translate briefs into polished visual interfaces.
- Aligned design decisions with brand goals and market positioning to drive measurable improvements in online presence.

Information Technology Specialist II | NYS ITS

Jun 2023 – Present

- Provide full-scale IT support for an entire agency building, maintaining uptime, security, and usability across all systems and hardware.
- Troubleshoot hardware, software, and network issues — consistently resolving complex problems independently and ahead of deadlines.
- Implement workflow and usability improvements that enhance accessibility and day-to-day operations for agency staff.
